THEME OF EVENT

Higher education in India has expanded rapidly over the past two decades. This growth has been mainly driven by private sector initiatives. The objective of this seminar is to identify the major issues and problems relating to the system of higher education in India. The researcher has narrowed down the scope of this three main concerns relating to higher education viz., the present regulatory framework, privatization and funding and financing. The convention examines various arguments, cases and recommendations in highlighting issues concerned. They vary in terms of their academic, administrative and financial arrangements.

CORE VALUES

1. Formulate, review and coordinate national science, technology and innovation policies and strategies.
2. Formulate, review and coordinate technical education policies and strategies.
3. Formulate, review and coordinate higher education policies and strategies.

who can participate?

All faculty members attached with Higher and Technical education from all Departments and P G Student of all branches.

About GTU

Gujarat Technological University is state-wide institution affiliating many reputed colleges across the state of Gujarat. GTU was established by an act of Gujarat legislature (Gujarat Act No. of 2007). The university has more than 440 affiliated institutions. It provides courses in Engineering, Diploma Engineering, Pharmacy, BCA, MCA and Management through its various affiliated Colleges. It is free web application that educators can use to create effective online learning sites. GTU campus Connect website has been designed by students, it is being run by students and its objective is to help students.

About ISTE

The Indian Society for Technical Education is a national, professional, non-profit making Society registered under the Societies Registration Act of 1860. First started in 1941 as the Association of Principals of Technical Institutions (APTI), it was converted into "Indian Society for Technical Education" in 1968 with a view to enlarge its activities to advance the cause of technological education. The major objective of the ISTE is to assist and contribute in the production and development of top quality professional engineers and technicians needed by the industries and other organisations. Being the only national organisation of educators in the field of Engineering and Technology, ISTE effectively contributes in various missions of the Union Government. The Ministry of HRD/DST/MIT/State Govts. are well associated with the ISTE for programmes relating to technical education.
